1. The petition under 37 C.F.R. 1.137(b) has been granted. The amendment filed on 10/08/02 has been entered. Claims 1-20 are pending.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-8, 10-19 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 4-9 of U.S. Patent No. 6,430,213. Although the conflicting claims are not identical, they are not patentably distinct from each other.

Regarding claims 1, 2, 4-8, 10, 11, 13, 14, 16, 17 and 19, omission of features whose functions are not needed in a particular design would have been obvious to one of ordinary skill in the art at the time of the invention.

Regarding claims 3, 12, 15, and 18, modifying the modulation system recited in the patented claims by selecting a particular range of values of the modulation index, power level or type of waveform appropriate for specific system requirements would have been obvious to one of ordinary skill in the art at the time of the invention.

Allowable Subject Matter

4. Claims 1-8, 10-19 would be allowable if rewritten or amended to overcome the double patenting rejection, set forth in this Office action.
5. Claims 9 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter:
Prior art of record, taken individually or collectively, fails to disclose a modulation system comprising all the limitations as recited in the claimed invention.
